FOUR CASES OF SHOES STOLEN.

A DAPPER YOUNG MAN ORDERED THEM TAKEN AWAY IN A TRUCK.

Four cases of shoes, valued at \$325, were stolen from in front of Hanan's shoe store, at No. 365 Fulton-st., on Friday afternoon. As the shoes were taken to the store door by the truckman, a young man, dressed in a gray suit and of dapper appearnuce, teld him to put two cases inside the store. The clerks in the store thought the young man was connected with the firm that was delivering was connected with the firm that was delivering the goods, and the driver thought he was the manager for the store. The well-dressed young man ordered four cases placed on the sidewalk.

A few minutes later another truck was driven up to the curb, and the cases were placed on it. The young man got on the truck and drove off. A policeman saw the operation, but his suspicions were not aroused, as the whole thing was done in a businessike way. The police are looking for the enterprising young man.

AFFAIRS AT THE NAVY YARD

STATION THIS WEEK.

THE NEED OF KEEPING TRAINED WORKMEN ON HAND BROUGHT OUT BY CHIEF NAVAL CONSTRUCTOR HICHBORN'S REPORT

-- CHANGES IN ASSIGNMENTS.

Popularity is once more the portion of the Navy Yard, for the big ships of the fleet, the Brooklyn, the New-York and the Iowa are tled up at the bulkheads, and in addition to these the chinks. It is more than likely that Thanksgiving Day will see many of the vessels in port, as work has not been begun on some of them, and it is known that they are in need of some slight repairs. Every one familiar with the yard routine knows that this means an in-

definite stay at the station, and the wives, sweethearts and sisters of the men who man the ships are hoping that the sailor lads will enjoy their turkey dinners at home. The New-York has been floated from the timber dock and to in the hands of the equipment department, which has a programme covering about two weeks of work. All this is not absolutely necessary to the seaworthiness or fighting capability of the ship, but it is considered just as well to have all the electrical connections in good order, and she is expected to remain at the wall until it is all completed. There is still con-MACHINE MANAGERS ISSUE THE RESULTS siderable to be done on the Helena before she will be ready to start for the China seas, but she will probably get away within a fortnight. The movements of the Marblehead, which is ready for sea, are at present uncertain, and no one seems to know just what she will be ordered to do. The Brooklyn and the Iowa need not be kept long after the repairs to be made are decided on, but there does not appear to be any rush regarding them. At the same time there is nothing to prevent the ships going to sea on short notice, and it is the general opin ion that no work which would delay them long will be undertaken at present.

The Dolphin is the vessel on which the hopes is concerned. A board of survey is to get at her within a few days, and there is a general idea that when it gets through there will be almost a complete rebuilding ordered. The ship has never been overhauled thoroughly since she first went into commission, thirteen years ago, and, in addition to the needs of her engine and boiler rooms, new decks and fittings will probably be called for. Her stay at the yard is indefinite, but it will not be less than three months, unless an emergency should arise.

WORK ON THE BIG DOCK STOPPED. Work on the big timber dock is at a standstill, the recent sterms having upset all the calculations of the lumber people and the yard my of Music before an audience which filled the officers. It is the hope of every one at the yard that the pile-drivers will resume operations before many days, and another start be made toward brushing aside the "hoodoo" which has so far hung over the work.

Paving, sewering and building operations have gone along as usual in the last week, and the making of the yard an attractive place is gradually approaching completion. Considerable comment has been caused at the yard by the recommendation of Chief Naval Constructor Hichborn, made in his annual report to the Navy Department, that five sheathed cruisers be built at the navy yards, in order to retain a force of skilled workmen at the yards when cepair work is slack. It is understood that the recommendation is favored by naval officers, but that it is doubtful if Secretary Long will include it in his report, owing meeting held in the interest of Sein Low's candidacy in Casino Hall, Ninetcenth-st, near Thirdthe need of improvement of the repair plant at the various vards. The assertion is made by officers supposed to know that the Brooklyn yard, as at present run, can turn out ships as quickly, as well, and, for the purposes of the Government, as cheaply, as any private shop in the country, and the hope is generally expressed that Secretary Long will give careful consideration to Naval Constructor Hichborn's recommendation.

RECRUITING OPERATIONS SUSPENDED.

RECRUITING OPERATIONS SUSPENDED.

Although there is great need of a larger number of enlisted men, orders have been issued suspending recruiting operations for the present. This is in order to prevent exceeding the limit of calistments allowed by law. The need of an extension of the limit is shown by the fact that the Vicksburg recently went into commission with a small crew, and a number of vessels in active service are shorthanded. The new gunboat Princeton cannot be put in commission unless a chip now in commission is iald up in receive.

sels in active service are shortmanded, new gumboat Princeton cannot be put in commission unless a chip now in commission is laid up in reserve, and it is expected that the Secretary will recommend an increase of 1,500 men and 500 boys in the enlisted force, although there are a number of officers who think that this will be all too small an addition to the available force.

Captain A. H. McCormick is slated for the command of the New-York when Captain Slias Casey is detached, which, it is expected, will be at an early date. Captain McCormick's relief as Captain of the Norfolk Navy Yard, is Captain William C. Wise, recently of the Texas, who has been relieved by Captain John W. Phillp, formerly of the New-York. Captain Casey will probably take command of the League Island Navy Yard on the sailing of Commodore J. A. Howell for the European station.

CHANGES OF THE WEEK. Among the changes of the week are the

following affecting the ships and officers of this station:
